What version of WP Client Reports is right for me?

FAQs · https://wpclientreports.com/docs/faqs/what-version-of-wp-client-reports-is-right-for-me/

If you're wondering which WP Client Reports plan is the best fit, here’s a quick guide to help you decide:

Free Plan

The **Free** version is great for individuals or anyone needing essential site tracking without any frills. It covers the basics, like monitoring WordPress core, plugin, and theme updates, and allows you to track these stats on unlimited sites. If you’re just looking to keep an eye on site updates and don’t need advanced customization or scheduling, this plan gives you exactly what you need—simple, effective tracking for free.

Pro Plan

For those managing several sites or running a side gig, the **Pro** plan is a solid choice. This plan allows you to handle up to 10 sites, schedule report emails, and add your own branding. If you’re a freelancer or small business managing a handful of client sites, the Starter plan helps you look professional and stay on top of reports without breaking the bank. You also get access to useful integrations to increase the value of your reporting services.

Agency Plan

The **Agency** plan is designed for WordPress professionals and agencies who handle multiple client sites and need advanced reporting tools. With unlimited site support, customizable branding, and planned features like AI-enhanced reports, this plan is perfect if you want to offer clients high-quality, automated reports on a larger scale. It’s a complete solution for professionals looking to save time and deliver polished, branded insights.
