Set up Pingdom

General · https://wpclientreports.com/docs/general/set-up-pingdom/

1. Log in to Pingdom
2. In the left hand sidebar, click on **Integrations** and then **The Pingdom API**.
3. Click the green **Add API token** button in the top right corner.
4. It will prompt you to name the token, you could name it something like “Website”, “WordPress”, or “WP Client Report”. It’s up to you.
5. Choose **Read access**. This will mean the plugin can only gather data from the account and cannot change settings.
6. Click **Generate token**.
7. Copy the token you are given and click Done.
8. Log in to your WordPress site and go to **Settings > WP Client Reports**.
9. Enable Pingdom and click **Save**.
10. Paste the token from steps above and click **Save**.
11. You will probably need to select a “Check” (which website) and click **Save**.
